

BIG SANDY NEWS.

Aut inveniam viam, aut faciam.

VOL. XIX. NO. 14.

LOUISA, LAWRENCE COUNTY, KENTUCKY, DECEMBER 4, 1903.

M. F. CONLEY, Publisher

THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

Prospects are said to be favorable for a settlement in a few days of the strike in the Northwestern Colorado coal fields.

John K. Duke, the defaulting cashier of the Royal Building and Loan Association, of Portsmouth, O., killed himself rather than face disgrace.

A big demand for Kentucky corn has been created by the entrance of Baltimore as a chief export city. Immense shipments are being made from Louisville at present.

Grover Cleveland has written a letter to the editor of the Brooklyn Eagle, in which he says that his determination not to again become the nominee of his party for the presidency is his unalterable and conclusive.

The State Board of valuation and Assessment fixed the franchise assessment of the Louisville and Nashville Railroad Company for this year at \$8,185,935, which means taxes to the State in the sum of \$40,925,323.

Dr. W. C. Roberts, president of Centre College of Central University, died at his home in Danville last week. He was a theological student and educator of national reputation. His remains were taken to New Jersey for burial.

Chicago detectives, assisted by railroad men, farmers and laborers, captured Peter Neidermeyer, Harvey Van Dine and Emil Doski near Liverpool, Ind., after an exciting chase. Before being captured the three young outlaws killed T. Z. Soave, a railroad brakeman; fatally wounded Joseph Driscoll, a detective, and shot Matthew Zimmer, another detective, in the head and arm. All three of the outlaws were slightly wounded before they gave up the fight and surrendered. They are wanted for a series of murders and robberies. Including the brakeman they shot they are said to have killed eight men.

Advices received at Washington are to the effect that excitement still prevails in Bogota, but that no troops have yet been enlisted for the invasion of the isthmus. There is much speculation in Washington as to how Gen. Reyes will be received in official circles and what his mission will be. At the State Department not much credence given to Gen. Reyes' statement about raising an army of 100,000 men to subjugate the isthmus, as it is tacitly understood that the United States will not allow troops to land either by land or water.

It is announced that the strike in the Northern Colorado coal fields is settled and that the miners will return to work.

A plan is now on foot by the people of Lexington to make the State Fair a permanent institution at that place. They offer to give sixty acres of ground if the State will support the project.

The State Election Commission met Monday at Frankfort to hear arguments of attorneys for Edwards and White against awarding to Dr. Hunter the certificate of election to Congress in the Eleventh district.

Peter Neidermeyer, one of the bandits arrested by the Chicago police last week after an exciting man hunt in Indiana, declares that he assisted in the Illinois Central train robbery near Wickliff, Ky., several years ago. He also declares he was one of the men who attempted to hold up a R. and O. train at Edgemoor Ind., four years ago. Neidermeyer is confessing to so many crimes that the Chicago police are disposed to doubt many of his assertions.

The report of Fourth Assistant Postmaster General Bristow on the scandal in the Post-office Department was given to the press last night in Washington. Accompany-

ing the report is a review of the cases by President Roosevelt. The report goes into extensive details of the operations of Tyner, Beavers and Machen, and declares that millions of dollars have been wasted through a "system of organized corruption" that began in 1893. The loss to the government, Mr. Bristow says, cannot be estimated with any degree of accuracy, but the amount received by the perpetrators of the frauds, he asserts, will aggregate between \$300,000 and \$400,000. The report severely criticizes the official conduct of Perry S. Heath during his term as Postmaster General.

Revolution imminent.
A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness or stomach upsets. Electric Bitters will quickly dissolve the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, and clearify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its soothing and thorough effectiveness. Electric Bitters is only 70c, and that's returned if it don't give perfect satisfaction. Guaranteed by A. M. Hughes Drug Store.

Two thousand members of the Meat Workers' Union in Indianapolis Thursday voted down a proposition to strike for the adoption of wages.

A Costly Mistake.
Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for Dyspepsia, Dizziness, Headache, Liver or Bowel troubles. They are gentle yet thorough. 25c at A. M. Hughes Drug Store.

The fever epidemic at Butler, Pa., is increasing. Three deaths occurred Thursday. Citizens have raised a relief fund of \$5,200.

A Frightened Horse.
Running like mad down the street dunning the occupants, or a hundred other accidents, are every day occurrences. It behooves every body to have a reliable Salve handy and there's none as good as Buckle's Arnica Salve. Burns, Cuts, Sores, Eczema and Fles. It disappears quickly under its soothing effect. 25c at A. M. Hughes Drug Store.

For Sale.
240 acres, one mile from Currant station, 2 miles below Louisa. Adjoins Buchanan farm. 200 acres cleared, 60 acres in grass; all in good condition. 2 dwellings, 3 barns, good outbuildings, good fencing, plenty of rail and board timber, good coal vein, some fruit, of most all kinds. 1 pair stock horses, plenty of good water, country road through the farm. Land nice and smooth, not an acre that cannot be cultivated. For further particulars apply to Big Sandy News, Louisa, or H. H. Currant, Kinross, Ky.

Coughs, Colds and Constipation.
Few people realize when taking cold medicines other than Foley's Honey and Tar, that they contain opiates which are constipating besides being unsafe, particularly for children. Foley's Honey and Tar contains no opiates, is safe and sure and will not constipate.

A kidney or bladder trouble can always be cured by using Foley's Kidney Cure in time. Louisa Drug Company.

Men Wanted.
Fifty men wanted at once to work on railroad.

KINROSS & McCLOSKEY.
Kinross, Ky.

A Timely Topic.
At this season of coughs and colds it is well to know that Foley's Honey and Tar is the greatest throat and lung remedy. It cures quickly and prevents serious results from a cold. Louisa Drug Company.

Apples Coming.
A car load of choice winter apples, Baldwins, Greenings, etc., will be on sale soon at Kinross store. Kinross Improvement Co.

Better Than a Plaster.
A piece of flannel dampened with Chamberlain's Pain Balm and bound on the affected parts, is better than a plaster for a lame back and for pains in the side or chest. Pain Balm has no superior as a liniment for the relief of deep seated, muscular and rheumatic pains. For sale by A. M. Hughes.

Have you seen those delicious Doughnuts at the Louisa Bakery?

CONSUMPTION.

The Modern Crusade Working Wonders Against This Dread Disease.

[The following is an extract from an address made recently by Irving Fisher, Professor of Political Economy at Yale University and Secretary of the New Haven County Anti-Tuberculosis Association.]

Personally, I am interested in tuberculosis as one who has had it and been cured of it. But I am persuaded that the interest in it should not be confined to those who have had it, nor to the medical profession. There should be a general interest in the subject, for several reasons. In the first place, tuberculosis is a general disease. No other disease except pneumonia has any death rate like it. The mortality from tuberculosis equals that from peritonitis, appendicitis, scarlet fever, typhoid fever, diphtheria, grip, cancer, and smallpox combined. In this country one person in nine dies of it; and of the deaths which occur between the ages of fifteen and forty-five one-third are due to tuberculosis. In Germany between the ages of twenty and twenty-five almost half the deaths are from tuberculosis.

Not only is the prevalence of the disease shown by the number who die of it, but there is evidence that "latent" tuberculosis occurs in still greater frequency among those who never die of it, and who usually never even know that they have it. Nagel concludes an extended investigation with the statement that practically every adult has latent tuberculosis. This means that each of us has en-cysted in his lungs a certain number of bacilli which might cause the disease but which usually give no trouble because kept under control by good health or by the firmness of the growth in which they are incased.

Not only is consumption a common disease, but it is an infectious disease, and this is another reason why the public should be interested in it. It used to be thought that consumption was the type of a hereditary disease, and only specified classes of persons could have it. As a matter of fact, any kind of physique may be attacked. Persons with small chests and who inherit a small "resisting power" are more apt to succumb to the disease than others, but no one is immune. For instance a case is reported even in Colorado of a strong man who caught it by occupying a tent with a consumptive who expectorated his infection upon the floor. The disease, however, is communicable in practically only one way—through the expectoration, and this is dangerous only when dry and pulverized. Moist sputum is harmless (unless absorbed into the face or inhaled into an open wound or communicated through a kiss on the mouth), but when a mass of sputum, containing millions of bacilli, is deposited in the corridors of the post-office or railway station, and becoming dry, is trodden upon, the dust thus formed distributes these millions of bacilli through the atmosphere, and they are inhaled by all who breathe it. Outdoors the infection soon becomes too dilute to be harmful, except to the weakest systems, for a healthy body is a germ-killing apparatus. The disease spreads through infected buildings. Dr. Biggs, in New York, has shown that in particular tenement-houses there have been sometimes over a dozen successive cases.

A third reason why every one ought to know something about consumption is that it is so easily preventable. In fact, it is only because of the general ignorance and indifference about it that this dreadful disease is allowed to have its way among us. It is prevented in two ways: first, by destruction of the bacilli, and secondly, by fortifying the system to resist them. Consumptives should have paper spit-cups, which, with the expectoration, should be burned daily; apartments which have been occupied by consumptives should be reported to the local board of health and properly disinfected. Spitting upon the floor should be prevented. But ordinances against spitting, to be effective and enforced, must first be sustained by an educated public sentiment.

Our most important and immediate resource, however, is in defensive rather than offensive warfare. If we keep "in condition," we can safely resist the attacks not only of tubercle-bacilli but of other germs as well.

Not only is consumption a preventable disease, it is now known to be a curable disease. But it can be cured only provided it is

taken in time, and provided the proper hygiene is adopted. If it is not taken in time, it soon reaches the incurable stage. Consumption is not a self-limiting disease, but a parasitic disease. It begins at some small point like a fire in a house, and, like the fire, can be smothered and put out if it does not get too much headway. But when once beyond a certain point it cannot be extinguished. Consequently, an early diagnosis is one of the important medical questions of the day, and fortunately the medical profession is gradually waking up to the fact that it has not been diagnosing this disease early enough. It has depended too much on "physical signs," and too little on microscopic examination of the sputum. Free examination is now provided by most city boards of health, and ought to be availed of by everyone who has a persistent cough with yellow sputum.

It should be observed that tuberculosis always has been curable. But until recently the early and curable stage of the disease was not recognized as real consumption, but "only a threatening." In the light of modern knowledge it is practically certain that Napoleon, Goethe, Von Moltke, Cecil Rhodes, Emerson, and a host of other prominent personages, were cases of cure. I have a long list of living men and women who were cured years ago, though few of their acquaintances know of it. The agency by which cure was effected was once thought to be solely "good climate." But Brehmer in Germany conceived the idea, which today is almost universally accepted, that climate is of secondary importance, and that it is the out-of-door life and other hygienic conditions, rather than climate, which perform the cure. He therefore started a sanatorium, in 1859, having first cured himself of the disease in this way. He put his patients through this treatment and kept them out-of-doors in the daytime as long as the weather was pleasant. One of his patients, Dr. Dettweiler, afterwards started a sanatorium of his own. Our modern sanatorium treatment all comes from him. Dettweiler went further than Brehmer in that he paid no attention to the weather. Patients now even sleep out-of-doors all the year round.

In this country the first physician to take up the Dettweiler method was Dr. E. L. Trudeau. He has gradually developed the Adirondack Cottage Sanitarium institution on Dettweiler principles. After Dr. Koch in 1884 discovered the bacillary nature of the disease, Dr. Trudeau also established a laboratory which has been the pioneer of American institutions for the scientific study of the disease. Dr. Gardner, of Colorado Springs, was one of the first to have patients sleep out-of-doors. His results were astonishingly good, and this method is now widely employed. The patient sleeps

out even in the winter. With few exceptions, the colder the weather the better the patient likes it and the greater the benefit he derives. I have myself slept out when the thermometer registered ten degrees below zero, Fahrenheit. Last winter at the Adirondack Cottage Sanitarium, six patients, including one lady, slept out (with marked benefit) even when the mercury reached thirty below. A woolen head-gear with opening for the nose, warm night clothes, woolen sheets, not many blankets over one, but two or more warm mattresses (cotton, wool, or feathers underneath and that is all that is necessary to make one comfortable and luxurious.

(Continued next week)

MILIONAIRE'S POOR STOMACH.
The worn-out stomach of the over millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse torture than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c.

There is great excitement over the new gold field in Apache canyon in the Cobolita mountains east of Hillsboro, N. M. News first came in less than a week ago and now 500 persons are on the ground.

CLIMATIC CURES.
The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of Germen Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the gasping and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles 25c; regular size, 75c.

Five hundred policemen will guard President Roosevelt while he attends the funeral of his uncle in New York.

A Timely Suggestion.
This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is sure to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be ward off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. For sale by A. M. Hughes.

A steamer arriving at Victoria, B. C., from the Orient, brings news that China is collecting a war fund and otherwise preparing for hostilities with Russia.

Kodol Dyspepsia Cure.
Digests all classes of food, tones and strengthens the stomach and digestive organs. Cures Dyspepsia, Indigestion, Stomach Troubles, and makes rich red blood, health and strength. Kodol Dyspepsia Cure rebuilds worn-out tissues, purifies, strengthens and sweetens the stomach. Gov. G. W. Atkinson, of W. Va., says: "I have used a number of bottles of Kodol Dyspepsia Cure and have found it to be a very effective and, indeed, a powerful remedy for stomach ailments. I recommend it to my friends." Sold by the Louisa Drug Company.

Oberlin M. Carter, former Captain of Engineers, U. S. A., was released from the Federal prison at Fort Leavenworth Saturday and took a train for Chicago.

A Thousand Dollars' Worth of Good.
A. H. Thurnes, a well known coal operator of Buffalo, O., writes, "I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain. I got no relief from medicines until I began taking Foley's Kidney Cure, then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me a \$1000 worth of good." Louisa Drug Company.

Good For Children.
The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and LaGrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. Dr. Armstrong of Delta, Tex., prescribes it daily and says there is no better cough remedy made. Sold by the Louisa Drug Company.

We will be glad to send you a few doses free.
Be sure that this picture in the form of a label is on the wrapper of every bottle of Chamberlain's Cough Remedy.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y.
50c. and \$1. all druggists. Ask your druggist for a free Peruna Almanac for 1904.

A POPULAR ACTOR

Becomes a Gallant Soldier and Goes to the Front.

Mortimer Kaplan.
Mr. Mortimer Kaplan, who organized the soldier-actors' company which went to the front, says in a letter to Dr. Hartman in regard to Peruna: "I especially appreciate Peruna at this season when I am liable to colds, coughs and other catarrhal affections. Peruna is such an admirable medicine for these complaints that I shall not fail to make free use of it whenever the slightest symptom of cold annoys me. All people of my profession generally entirely disabes them from their duties. The actor depends so much upon the clearness of voice that a cough or cold is an unmitigated calamity. I am told by members of my profession that Peruna is a reliable remedy for la grippe." Mr. Kaplan's address is 105 West 98th street, New York City.

A book of lectures on "Winter Colds" will be sent free by the Peruna Medicine Co., Columbus, Ohio.

NEW PREMIUM OFFER.
Big Sandy News Will Distribute More Gifts Amongst Its Subscribers.

On Feb. 25th, 1904, we will distribute the following five premiums:

1. Ladies' or Gent's Fine Watch and Chain.
2. Sewing Machine.
3. Latest Webster's International Dictionary, price \$12.50; or 15-vol. set Chas. Dickens' works, bound in cloth; or 12-vol. set Sir Walter Scott's Waverley novels.
4. One set each of Rogers Bros. silver knives, forks and tea spoons.
5. Fancy \$10 enameled iron clock, 8-day.

A number is given with each dollar paid on subscription between Aug. 24th and the date above mentioned. The decision as to the five persons who will receive the gifts will then be reached by the same plan that was used by the News in making the award of the fine gold watch last May. Pay up and take advantage of this opportunity to get something for nothing.

It is understood that Lord Roberts will shortly resign as Commander-in-Chief of the British army.

How to Prevent Croup.
It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse, or even after the rough cough appears, and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by A. M. Hughes.

One fireman was killed and seven others were injured in Cincinnati Thursday while fighting a fire which destroyed a cigar box machine factory. The property loss was \$60,000.

One Hundred Dollars a Box.
Is the value H. A. Tisdale, Summerton, S. C., places on DeWitt's Witch Hazel Salve. He says: "I had the piles for 20 years. I tried many doctors and medicines, but all failed except DeWitt's Witch Hazel Salve. It cured me." It is a combination of the healing properties of Witch Hazel with anti-septics and emollients; relieves and permanently cures; blind, bleeding, itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases. Sold by the Louisa Drug Company.

The efforts of Alfred Dreyfus to secure a revision of his sentence have been crowned with success. The French Minister of Justice has submitted the dossier to a commission for examination.

Good For Children.
The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and LaGrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. Dr. Armstrong of Delta, Tex., prescribes it daily and says there is no better cough remedy made. Sold by the Louisa Drug Company.
